SUMMARY

Data analyst with 3 years of experience in **data analysis**, portfolio monitoring, and **project cycle management**, working across India, the US, New Zealand, and Australia. Turns complex, interrelated datasets into accurate dashboards and PowerPoint presentations for technical and non-technical audiences while managing multiple priorities and tight deadlines across multicultural teams. Strong analytical, written, and verbal communication skills (IELTS 8.0). MS Business Analytics, UMass (GPA 3.97).

SKILLS

Data Analysis: Excel (pivot tables, advanced formulas, charts), SQL, Python (pandas, NumPy), statistical analysis
Visualization & Reporting: PowerPoint, Tableau, Power BI, dashboards, executive briefings, data narratives
AI & Machine Learning: Claude API, large language model (LLM) applications, scikit-learn, XGBoost, SHAP

PROFESSIONAL EXPERIENCE

Senior Project Coordinator
Fingent Global Solutions
Jun 2022 – Nov 2024

- Led portfolio monitoring, core indicators, and results tracking for an **8-product SaaS portfolio** (Infince, Skill Lake, ReachOut) across international regions (US, New Zealand, Australia), coordinating India-based teams of **15+**.
- Strengthened portfolio governance via data standardization across 8 product lines, ensuring comparability.
- Cut reporting discrepancies **30%** and manual effort **40%** by automating portfolio reports in **Python and SQL**.
- Informed decisions for **200+** technical and non-technical stakeholders by building **50+ Tableau and Power BI dashboards** and PowerPoint briefings on delivery, engagement, and financial key performance indicators (KPIs).
- Delivered **15%** efficiency gains and **25%** less scope creep by mapping processes and tracking dependencies and risks.
- Raised delivery velocity **22%** by designing an A/B testing framework that grounded prioritization in evidence.
- Cut errors **40%** on a Fortune-class client's AI content pipeline by governing change management and escalation.
- Managed end-to-end project cycles (pre-sales to completion): milestone tracking, cost reports, stakeholder reporting.

PMO Consultant
Fingent Global Solutions
Mar 2022 – Jun 2022

- Built **KPI frameworks, dependency logs, and capacity models** for 3 cross-functional programs; cut issue resolution time **25%** and documentation turnaround **35%**, and coordinated **30+** resource decisions with finance and operations.

Junior Business Analyst
Centre Source Technology Solutions
Nov 2021 – Mar 2022

- Authored functional specifications for 2 business units and designed Power BI dashboards for 5 client portfolios; sped issue identification **22%** and cut repeat bottlenecks **15%** through root cause analysis.

SELECTED PROJECTS

Clinical Trial Portfolio Analysis *Python, pandas · Independent project*

- Processed a **143,266-row** ClinicalTrials.gov export into **3,446** Phase III oncology trials, categorized by sponsor type, quantifying a **1.83x** industry-vs-academic median enrollment gap; engaged by Medidata Solutions.

Geospatial Hub Network Optimization (MS Capstone) *Optimization modeling · May 2026*

- Built a spatial p-median optimization model for resource allocation under a tight **$54.26M** capital budget, siting **7 regional hubs** to reach **31.46%** population coverage within a 15-minute response threshold.

EDUCATION

Master of Science (MS), Business Analytics
University of Massachusetts Amherst, Isenberg School of Management | May 2026 | GPA 3.97/4.0
Coursework: Python for business analytics (portfolio optimization), project management, project risk management

Bachelor of Technology (BTech), Mechanical Engineering
APJ Abdul Kalam Technological University | May 2021
Led a student team after the 2018 Kerala floods on a flood-resilient emergency vehicle exhaust system, a disaster risk reduction and climate adaptation project for environmental resilience; state award; AIP-published.

CERTIFICATIONS

Certified ScrumMaster (CSM), Certified Scrum Product Owner (CSPO), Six Sigma White Belt, Jira Foundation
